Annual Report

Overview Chewd.mo.gov

ANNUAL REPORT 2024 OVERVIEW

The Missouri Department of Higher Education & Workforce Development (MDHEWD) works with the state's colleges and universities to help students achieve their education and career goals and to increase the percentage of Missourians with degrees and certificates to provide a skilled and knowledgeable workforce. The department works alongside local workforce boards to help job seekers gain valuable training and skills to enter the workforce and stay in the workforce.

MDHEWD continues to work toward reaching the goals established in its strategic plan, which the Coordinating Board for Higher Education developed and approved during FY 2022. The strategic plan, *Building Missouri's Future: A strategic plan to provide pathways and reduce barriers to educational attainment and workforce participation*, guides initiatives and priorities in Missouri. The plan was created using data to determine statewide needs and compare Missouri to other Midwestern states. It outlines a comprehensive plan for education, training, and the public workforce system to encourage economic growth and personal success among Missourians.

Missouri strives to be the best among Midwestern states in educational attainment and labor force participation by 2030.

Three main goals were established as part of the strategic plan: To reach 60 percent educational attainment, 70 percent labor force participation, and to be the Best Place to Work in state government.

AFFORDABILITY

• More than \$159.3 million in state financial aid was awarded to 63,995 Missouri students through 10 grant and scholarship programs, including more than \$81 million through the Access Missouri Grant.

PROGRAM APPROVAL

• The department approved the addition of 149 new academic programs and the deletion or inactivation of 88 programs at Missouri's public colleges and universities. The department also reviewed 96 new academic programs while deactivating or deleting 42 programs offered by the state's independent institutions.

MOEXCELS

• In FY 2024, 25 proposals totaling \$50.3 million were submitted. The General Assembly appropriated funds for 19 projects totaling \$38.3 million. MoExcels funding was earmarked to facilitate development and expansion of employer-driven education and training programs and initiatives to substantially increase educational attainment.

WORK-BASED LEARNING & WORKFORCE INITIATIVES

Apprenticeship Training

MDHEWD was awarded a \$4 million Apprenticeship Building America grant and a \$1,253,576 State Apprenticeship Expansion Formula grant from the U.S. Department of Labor during Fiscal Year 2024. The Office of Apprenticeship and Work-Based Learning supports apprenticeship expansion efforts and engages employers, industry associations, and training providers statewide to increase awareness of registered apprenticeship training models. Through these efforts, the number of registered programs available for Missouri citizens continues to grow, creating easier access to high quality career pathways. Grant funds support portions of registered apprenticeship and pre-apprenticeships, including occupations in health care, information technology, education, biosciences, advanced manufacturing, and construction occupations. Registered Apprenticeship opportunities support both components of DHEWD's goals for credential attainment and labor force participation. To date, Missouri ranks third in the nation for active and new apprentices, second in the nation for completed apprentices, and first in the nation for serving individuals with disabilities. Additionally, DHEWD partners with the Missouri Chamber of Commerce and Industry to provide Apprentice Connect and Intern Connect training opportunities. These systems allow apprentice and intern seekers to find opportunities across the state for free.

QUEST

MDHEWD has been awarded a Quality Jobs, Equity, Strategy, and Training (QUEST) Grant from the U.S. Department of Labor-Employment and Training Administration. This grant assists Missouri's economic growth by equipping workers with credentials and expanding access to high-quality career pathways. The QUEST grant provides funding to support classroom training, on-the-job-training, and work experience opportunities. This grant supports community colleges and higher education institutions to assist students with meeting a variety of needs to ensure successful completion of their training program. The QUEST Grant provides students with supportive services to help address a variety of challenges that students might confront, such as food insecurity, housing needs, transportation, health care needs, and ensuring connection to internet and other technology necessary to remain in their training program. To date, the QUEST Grant has served 193 individuals. This grant will be available through September 30, 2026.

Coursera

MDHEWD is partnering with Coursera to develop training opportunities for Missouri citizens and state staff. Coursera provides a flexible avenue for customers to learn new marketable skills as they seek new employment or work toward a promotion. Coursera allows users to start most classes at their convenience while retaining the ability to meet deadlines and other work commitments. This free opportunity is offered statewide, with enrollments handled through the Missouri Office of Workforce Development Virtual Learning Unit. By offering online courses, Coursera has helped individuals overcome barriers to traditional education, such as geographical constraints and time limitations. This initiative has allowed Missouri residents to upskill, reskill, and pursue lifelong learning opportunities. Coursera has played a significant role in supporting the educational and professional advancement of Missouri citizens. These programs have been instrumental in providing valuable learning opportunities for state staff, workers, students, and job seekers, offering a diverse range of courses that cater to the specific needs of Missourians.

89,332 certificates & degrees

were awarded by Missouri public, independent, and proprietary institutions during the 2022-23 academic year.

337,624 students

were enrolled at Missouri's public two- and four-year, independent, and proprietary institutions in 2022-23.

Workforce Connections for Youth

MDHEWD is committed to assisting youth with identifying career pathways and the related training needed to be successful in their chosen career. Through a variety of efforts, MDHEWD is assisting students, teachers, counselors, and others with understanding what employers want in their workforce. MDHEWD is focusing attention on critical industry sectors and is creating workforce programs to help connect youth with workforce experience opportunities in health care, information technology, construction, manufacturing, hospitality, and more as the list of employers grows. Through MDHEWD's youth initiatives, Missouri's workforce of the future learns about education requirements, labor market information, training, and support services needed to succeed in Missouri's workforce.

The Career Opportunity Training for Youth (COTY) initiative is a state, regional, and local partnership with the Central Workforce Development Region and the Columbia Public School District. Through this demonstration project, MDHEWD is helping to ensure that Columbia area youth have access to career pathway opportunities. Julie Carter, Director of Missouri's Office of Workforce Development, says, "Missouri employers are globally competitive, and they demand a globally competitive skilled workforce. We are responding to employer demands. Youth is our future. We want everyone to have a good job with benefits and family sustaining wages. We depend on our youth to grow Missouri's economy. Missouri employers are very supportive of our efforts to help our youth."

MDHEWD will use experiences learned from this demonstration project to scale future youth workforce initiatives. Results from the COTY will have long lasting positive influences on Missouri's efforts to build meaningful youth workforce programming in the future.

RESEARCH AND DATA

- The Office of Performance & Strategy released important data on Missouri's current economic and higher education trends, industry and occupational projections, the monthly Jobs Reports, the Economic and Workforce Report, and many more.
- Student Right to Know fulfilled requirements of Missouri House Bill 1606 (2018) and Senate Bill 297 (2021). The collection of data is designed to help students make informed decisions about their future. It includes information about cost of attendance, student loans, graduate earnings, graduation rates, employment and salary outcomes, program costs, and time-to-completion.

Our Mission:

To put Missourians on a path to learn, work, and prosper.

Our Vision:

Every Missourian empowered with the skills and education needed for success.

Our Values:

Teamwork Collaboration Accountability Work-Life Balance

Our Principles:

People-centered Equity-focused Impact-driven Workforce-aligned

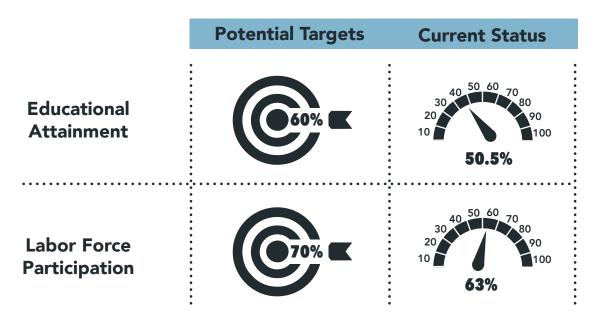

BUILDING MISSOURI'S FUTURE: A STRATEGIC PLAN TO PROVIDE PATHWAYS AND REDUCE BARRIERS TO EDUCATIONAL ATTAINMENT AND WORKFORCE PARTICIPATION

By 2032, 65 percent of jobs in Missouri will require education and training beyond the high school diploma, at all levels of education — from apprenticeships and certificates through professional education. To meet the needs of employers and ensure all Missourians are able to be competitive for quality jobs, the Missouri Department of Higher Education and Workforce Development's Strategic Plan set a statewide goal of 60 percent of Missourians earn a postsecondary degree or credential. In addition, the plan set a labor force participation goal of 70 percent to fuel Missouri's economic growth. In 2022, 50.5 percent of working-aged adults (aged 25 to 64) earned a credential and 63 percent were actively participating in the labor force.

MDHEWD's plan recognizes the need for every Missourian to be competitive for quality jobs, including rural, Black, and Hispanic residents. The full update to the Strategic Plan will be reviewed by the Coordinating Board for Higher Education at its March 2025 meeting.

ANNUAL REPORT 2024

STUDENT PERSISTENCE

The Missouri Department of Higher Education & Workforce Development is continually working to increase student persistence by implementing initiatives such as corequisite remediation, Missouri Math Pathways, the CORE 42, and 15 to Finish. Student persistence data represents the percentage of first-time, full-time degree-seeking students at Missouri colleges and universities who enroll in school the following fall.

STATE STUDENT FINANCIAL AID PROGRAMS

State student financial aid disbursed during Fiscal Year 2024

Program	Students	Dollar Amount
A+ Scholarship	13,393	\$53,384,858
Access Missouri Grant	40,885	\$81,433,557
Advanced Placement Incentive Grant	5	\$2,500
Bright Flight Scholarship	7,339	\$17,888,688
Dual Credit/Dual Enrollment Scholarship	1,068	\$766,259
Fast Track Workforce Incentive Grant	1,261	\$5,359,815
Kids' Chance Scholarship	1	\$6,500
Minority and Underrepresented Environmental Literacy Program	6	\$35,855
Public Safety Officer Survivor Grant	12	\$130,988
Wartime Veteran's Surviors Grant	25	\$304,628
Totals	63,995	\$159,313,649

A+ Scholarship Program (Section 160.545, RSMo)

The A+ Scholarship serves graduates of A+ designated high schools who meet certain academic and other requirements while in high school and attend a participating public community college or vocational/technical school or certain private two-year vocational/technical schools. Award amounts are based on the student's actual tuition and general fees after the Pell Grant, or other federal, non-loan funding, has been applied.

Access Missouri Financial Assistance Program (Section 173.1101-1107, RSMo)

The Access Missouri Program provides need-based grants to students with an Expected Family Contribution (EFC) of \$12,000 or less, based on the Free Application for Federal Student Aid (FAFSA). In Fiscal Year 2024, the EFC threshold was raised to \$20,000, as provided in statute, to fully expend available funding.

Award amounts vary depending on a student's EFC as well as the type of school attended.

In Fiscal Year 2024, actual maximum and minimum award amounts were \$1,300 and \$300, respectively, for students attending public two-year institutions. For students attending public four-year institutions, State Technical College of Missouri, independent, and virtual institutions, the maximum and minimum award amounts were \$2,850 and \$1,500, respectively.

Advanced Placement Incentive Grant (Section 173.1350, RSMo)

This is a nonrenewable grant designed to encourage high school students to take and score well on Advanced Placement exams in mathematics and science. To qualify for the \$500 award, students must achieve a grade of three or higher on at least two designated Advanced Placement exams while attending a Missouri public high school. Students must also receive an award under the Access Missouri Financial Assistance Program or the A+Scholarship Program in the same academic year they receive this grant.

Dual Credit/Dual Enrollment Scholarship (Section 173.2505, RSMo)

Passed during the 2022 legislative session, SB 718 created the Dual Credit/Dual Enrollment scholarship, which is based on financial need and covers the cost of tuition and fees for dual credit or dual enrollment courses from an approved Missouri college or university. Students must also have an unweighted cumulative high school grade point average of at least 2.5 on a 4.0 scale or the equivalent and meet the high school's requirements for taking dual credit or dual enrollment coursework.

Fast Track Workforce Incentive Grant (Section 173.2553, RSMo)

Launched in August 2019, Fast Track provides tuition assistance to adults at least 25 years old or individuals younger than 25 who have not been enrolled in education in at least two years. Grant recipients receive financial assistance to work toward a certificate, degree, or industry-recognized credential that fills a high-need skills gap.

Changes to the program made during the 2022 legislative session increased the number of eligible training providers and expanded the program to include apprenticeships. Fast Track is a "last dollar" grant that covers tuition and general fees for students enrolled in a designated program of study at a participating Missouri school or training provider or direct costs of an

apprenticeship such as tools, books, and uniforms. Additionally, the Fast Track grant will no longer convert into a loan that must be repaid if students leave Missouri within three years of completing their education program.

The average award amount in Fiscal Year 2024 was \$4,250. Allied health, business/accounting, education, and computer science were the most popular program areas among grant recipients.

Higher Education Academic Scholarship, or "Bright Flight" (Section 173.250, RSMo)

This is a merit-based scholarship for students who achieve an ACT or SAT score in the top 5 percent on or before the June test date of their senior year in high school. Award amounts are tiered based on whether the student's score is in the top 3 percent or top fourth and fifth percentiles. The qualifying scores are determined at the beginning of the student's senior year in high school and are based on the scores achieved by Missouri seniors in the preceding graduating class.

Eligible students scoring in the top 3 percent may receive up to \$3,000 annually. The annual award for students scoring in the top fourth and fifth percentiles is up to \$1,000 annually. Students qualifying in the top 3 percent must receive the maximum \$3,000 award before students in the top fourth and fifth percentiles can be funded.

To be eligible in the top 3 percent in Fiscal Year 2024, high school seniors had to achieve an ACT score of 32 or better or an SAT score of 800 in critical reading AND 800 in math. To be eligible in the top fourth and fifth percentiles in Fiscal Year 2023, high school seniors had to achieve an ACT score of 31 or an SAT score of 760 to 799 in critical reading AND 770 to 799 in math.

Kids' Chance Scholarship Program (Sections 173.254-173.258, RSMo)

This program, created in 1998, provides scholarships for children of workers who were seriously injured or died in a work-related accident or from an occupational disease covered by workers' compensation and compensable under chapter 287, RSMo. The scholarships are funded from the interest generated by the Kids' Chance Scholarship Fund. The fund contains \$1 million in principal resulting from the Division of Worker's Compensation deposits of \$50,000 per year made between 1998 and the final deposit in October 2018, as required by legislation.

Minority and Underrepresented Environmental Literacy Program (Section 173.240, RSMo)

This scholarship program assists academically talented minority and underrepresented individuals pursuing an undergraduate or graduate degree in an environmental course of study. Applicants are selected by the Minority Environmental Literacy Advisory Committee based on academic achievement as evidenced by grade point average and standardized test scores, involvement in school and community activities, and leadership characteristics. MDHEWD determines award amounts based on the amount of funding appropriated to the program and the number of eligible applicants.

Public Safety Officer or Employee's Child Survivor Grant Program (Section 173.260, RSMo)

This is a grant program for public safety officers who were permanently disabled in the line of duty. Children younger than 24 years old who are dependents of officers or dependents of Missouri Department of Transportation employees engaged in the construction or maintenance of the state's highways, roads, and bridges and were killed or totally and permanently disabled in the line of duty are also eligible. Eligibility also extends to spouses of officers killed or totally and permanently disabled in the line of duty. The maximum grant amount is the lesser of the actual tuition charged at the school in which the student is enrolled full-time or the amount of tuition charged to an undergraduate Missouri resident enrolled full-time in the same class level and academic major at the University of Missouri-Columbia. The grant may be renewed annually until the student obtains a baccalaureate degree or, in the case of a dependent child, until the student is 24 years old, whichever occurs first.

Wartime Veteran's Survivors Grant Program (Section 173.234, RSMo)

This program was designed to provide up to 25 grants for tuition assistance, room and board, and books for students who are survivors of post-9/11 war veterans whose deaths were a result of combat action or were attributable to an illness contracted while serving in combat, or who became at least 80 percent disabled as a result of injuries sustained in combat. Although the Wartime Veteran's Survivors Grant program became effective in 2008, the first award was made in 2011, which was the first year funds were appropriated for this program.

ANNUAL REPORT 2024 ACADEMIC PROGRAM ACTIONS

The Coordinating Board for Higher Education has a statutory responsibility to approve new academic programs and program changes; regulate the off-site delivery of existing programs; and approve the establishment of residence centers and instructional sites by public higher education institutions.

Independent institutions are requested to submit proposed new programs and programmatic changes for review and comment. The program must be reviewed as a stipulation for inclusion in the statewide inventory of approved programs.

The following charts summarize the number of programs added, deleted, inactivated, withdrawn, and conducted off-site for public and independent institutions during Fiscal Year 2024.

Public Institutions

Action	Certificate	Associate	Baccalaureate	Graduate	Total
Deleted	16	7	16	7	46
Inactivated	18	20	3	1	42
Program Changes*	35	13	40	40	128
New**	76	25	23	25	149

^{*}Includes options added, inactivated, and deleted, titles changed, CIP changes, and programs combined

Private Institutions

Action	Certificate	Associate	Baccalaureate	Graduate	Total
Deleted	6	1	16	3	26
Inactivated	3	2	9	2	16
Program Changes*	5	2	89	7	103
New**	40	9	31	16	96

^{*}Includes options added, inactivated, and deleted, titles changed, CIP changes, and programs combined

Provisional Programs

Action	Two-Year	Four-Year	Total
Recommended full approval	3	15	18
Recommended review in two years	5	10	15
Programs deleted or inactivated	0	6	6

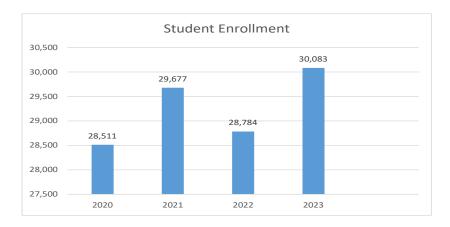

^{**} Includes certificates added through the program change process at the main campus and off-site locations

^{**} Includes certificates added through the program change process at the main campus and off-site locations

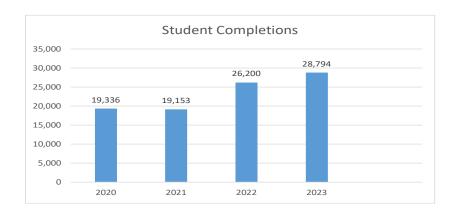

PROPRIETARY SCHOOL CERTIFICATION & ENROLLMENT

The Department of Higher Education & Workforce Development oversees operating standards for proprietary schools to ensure students are treated fairly and receive education and training consistent with the published objectives of the schools. Certified schools provide education and training in more than 1,000 degree and certificate programs.

The number of proprietary schools certified or exempted in Missouri during calendar year 2023 include 138 main institutions, 12 branch institutions, 14 recruit main institutions, one recruit branch institution, and more than 400 CBHE-exempted institutions.

The number of students enrolled in a Missouri certified school in calendar year 2023 increased by nearly 1,300, from 28,784 in 2022 to 30,083 in 2023.

More than 28,000 students graduated from a certified Missouri or recruit school in calendar year 2023.

CORE BUDGET RECOMMENDATIONS

The Coordinating Board for Higher Education's budget recommendations for state-supported public colleges and universities for the upcoming fiscal year are:

Institution	Fiscal Year 2025 core funding	Fiscal Year 2025 restrictions	Fiscal Year 2026 requested increase
Community Colleges	\$178,389,569	\$0	\$5,351,687
State Technical College	\$9,358,187	\$0	\$279,846
University of Central Missouri	\$66,886,690	\$0	\$1,999,851
Southeast Missouri State University	\$55,541,091	\$0	\$1,657,983
Missouri State University	\$113,933,027	\$0	\$3,396,991
Lincoln University*	\$36,205,618	\$0	\$1,080,169
Truman State University	\$50,383,736	\$0	\$1,505,512
Northwest Missouri State University	\$37,816,580	\$0	\$1,126,997
Missouri Southern State University	\$31,471,095	\$0	\$938,133
Missouri Western State University	\$27,123,288	\$0	\$803,949
Harris-Stowe State University	\$12,801,563	\$0	\$378,047
University of Missouri	\$504,527,886	\$0	\$15,042,237
Four-Year Institution Subtotal	\$936,690,574	\$0	\$24,929,869
Total All Sectors	\$1,124,438,330	\$0	\$30,561,402

Note: Core increase includes a New Decision Item (NDI) for a 3% inflationary increase.

Not included in the table is a maintenance and repair NDI for \$27,123,204.

RECIPROCITY

State Authorization Reciprocity Agreement (SARA)-participating institutions:

- 25 public institutions
- 23 independent institutions
- 15 theological institutions
- 7 certified / proprietary institutions
- 6 specialized / technical institutions

^{*} Lincoln University increase includes Land-Grant Match NDI.
